SUBJECT: Notice To File Corrected Application Papers 9/29/03 – Inventor Response

The issue reported was that Figures 13A, B, C, & E were too small.

These drawings were included to show samples of the output of the invention on 11"x17" paper and was thus shrunk to fit on 8.5"x11" paper. As indicated on the drawing, it was not intended to be read but rather for an overall visual perspective. All relevant aspects of the drawing are shown in other drawings.

I have discussed this with the USPTO Patent Customer Service line and, since these drawings are not necessary to the understanding or implementation of the invention, they may be removed. The reviewer may request full size copies if desired.

Thank you,

A handwritten signature in black ink, appearing to read "M - Sewell".
